“ —

I initially engaged ecfirst, to provide approved Certified CMMC Professional (CCP) to me and some of my compliance team. I couldn't be more satisfied with the experience. *The training was comprehensive and engaging, providing me with the knowledge and skills I needed to successfully achieve my CCP certification.* The resources they provided after the training were invaluable, offering continued support and guidance as I prepared for the exam. I continued my CMMC journey with ecfirst by taking their approved Certified CMMC Assessor (CCA) training. Again, the people, the content, and the resources were outstanding. The instructor was not only very knowledgeable about the content but had real-world assessment experience and fielded all types of challenging questions from the class. I am in the process of studying for the CCA exam, but have a high degree of confidence about passing using the resources, especially the practice exam portal that ecfirst provides.

I was so impressed with the quality of the training and the dedication of the instructor that I decided to hire ecfirst to provide consulting services for my company, which is a Registered Provider Organization (RPO). *Their expertise and commitment to excellence have made a significant impact on our organization and our ability to provide CMMC readiness services to our customers.* I am confident that partnering with ecfirst was one of the best decisions we've made.

*I highly recommend ecfirst to anyone seeking top-notch CMMC training and consulting services.* I will also be highly recommending to our CMMC customers that are seeking certification to select ecfirst as their C3PAO. They truly go above and beyond to ensure their clients' success.
